6. Added Departure Date and a fourth Status/Color (On Hold) to the Logbook panel 01/01/07
7. All Update\Cancel\Reinstate date and time stamp entries will be moved to the messages grid on the Logbook Entry display 01/01/07
8. Logbook Report Writer has been expanded to include the ability to create multiple export files complete with a convenient way to purge them when you're done. 01/25/07
9. If you are using the Events feature of CA, you now have a way of entering exceptions to the schedule of the event. 01/28/07
10. Have a top priority message for someone? You can now indicate an Urgent message that will be delivered immediately 01/29/07
11. Added contact and Event Graph to QV 01/15/07
12. Others Tab – Import Website Request located and activated from this spot instead of the need to schedule a job (only visible if using Web Import) 03/31/07
13. Timed Services - Added cycle of working dates for schedules to accommodate properties with rotating week schedules (NPCV) 04/9/07
14. The new Provider Schedule on the Timed Services Calendar is now able to view all therapists 04/13/07
15. PMS/Reservations Interface 04/15/07
16. Added the ability to Export staff to a csv file 4/26/07
17. Created link between Profiled guests and Rentals and Inventory Items 4/26/07
18. Created link between Profiled guests and Lost and Found Feature 4/26/07
19. The "PDF and Email" feature did not attempt to get the Profile email address for Guest Confirmations and Guest Service Requests – it does now - 4/28/07
20. By popular demand: You can now "Return to Owner" a Found Item without having to create a corresponding Lost Item. Check out the button labeled "Return to Owner – No Lost Item Entry was Found" 4/28/07
21. The email address has been added under phone number for the staff associate entered as Concierge Staff. This field will print on Export Staff List 5/9/07
22. Lost & Found – added a place for Room #. 5/9/07
23. Lost & Found – added a date, and time stamp with initials of person creating entry 5/9/07
24. Admin - Configuration Options – Failed Logons changed to User Logon Attempts showing both successful and unsuccessful logons by users 5/9/07
25. Read Only for Lost and Found 5/16/07

26. Sort By in Logbook now includes: Ref Dated Descending and Name 5/18/07
27. Added ability to enter actual time on logbook entries in the "Reference Time" and now prints on Confirmations and Itineraries as actual time with actual date before reservation information is printed 07/10/07 version 9.0.1 level 81052
28. Gave ability to create correspondence documents with logo for individual logbook categories, type of entry must match correspondence document name 07/10/07
29. Gave selection of Rental Categories under Admin - Concierge Staff authorizations 07/10/07
30. Added color variation between names in Logbook, Contacts....all main screens displaying multiple listing information 07/10/07
31. Added Salutation to Profiles - CA changes v. 9.0.006 01/06/08
32. Created more flexibility into The Logbook Correspondence by modifying to dynamically display the custom logbook back panel items after you select the correspondence name. A new selection list was also added to see and select the logbook entry types.
33. CA now allows the CA screen to be resized.
34. Added the ability to filter on Profile Types in Profiles and Logbook and the ability to define a Profile Type abbreviation to display in Logbook
35. Created a quick exit from the logbook panel to the main screen labeled "Save & Exit".
36. The Columns in Reservations can now be resized.
37. For security purposes, CA will require the CA user to be authorized to view credit cards and must also type in their credit card viewing password to authorize the Cloning of a logbook entry containing credit card information. The logbook entries may still be cloned by non-authorized users but will be without the credit card information and the user will receive a message stating so.
