

Adding a website to the CA web pages

Click the green question mark on the left corner and the CA web pages will open, select from the menu at the top 'View' and then "source".

You will see the index notepad with all the webpages linked and the source code. Scroll down so you can find the location you want the link to the desired webpage and highlight the row.

When you are finished click 'file' from the menu and select "save" (Ctrl+S). Close the Index notepad.

Closed your internet explorer window and click the green question mark from the CA again, you will see your new link.
