

CA Enhancements of 2008

1. A whole new look for The Concierge Assistant this year, even the icon has changed! It's still the same Concierge Assistant you have always loved....just keeping up with the demands and changes of the industry.
2. With the new Tools option you can change the Visual Styles, including Theme, Toolbar and Tab Control size.
3. QV, the White or Message Board and the Concierge Assistant Web Pages is now also located under the Tools option.
4. A new Help option gives you immediate access to the Gold Key Solutions Website and the Concierge Assistant Tutorial.
5. Under "File" you can create an Export of the information you want from the Logbook entries you have with selection criteria you desire
6. Everyone has been begging for more color options.....now you have them for the print AND the Background!
7. Added Room Number to logbook Report Writer
8. Last year to Logbook entries we added another flag labeled "On Hold"....now, if "On Hold" doesn't suit, you can rename that label in Administration to anything you like such as "Posted" for an example.
9. We added the "updated Today" button to Events.
